

ACCOUNTING SOFTWARE RFP

QUESTIONS & ANSWERS

September 11, 2019

1. Do you have a budget for this initiative?
Price is not our main concern, but more so that we get a good product that meets our business needs, at a competitive price.
2. Have you done some preliminary work and viewed any systems prior to the release of this RFP?
Yes, we have seen demonstrations on MS Dynamics 365 & Acumatica.
3. How many user licenses are required?
If the invoice approval and routing is part of the software package, we will have approximately 70 users that will require access to the system.
4. If selected for demonstration, would your committee be open to a demo and site visit in our offices?
Yes, that's a possibility, however we have nice facilities for a demo in our offices too.
5. NetSuite is 100% java based. It is compatible with SQL Server Management Studio via our ODBC Connector. Can you please confirm his is acceptable for FMPA's Requirements?
Yes, that would be acceptable.
6. Are we required to mail in the RFP?
No, email is fine.
